## About Me

A frontend developer passionate about building user-friendly web applications. Experienced in React, JavaScript, and modern UI/UX principles. Adept at translating ideas into functional, pixel-perfect designs. I also led an e-commerce initiative (trustBUZZaar), enhancing my skills in user behavior, conversion optimization, and performance-driven design

## Professional Experience

November 2024 - present

- **Founder - trustBUZZaar**
  - Generated over ₹7,00,000 in revenue.
  - Launched and managed an online store using Shopify, focusing on high-converting design and layout.
  - Gained experience in Meta Ads.

October 2024 - November 2024

- **SDE - FOG**
  - Worked on core game logic using Node.js. and frontend integration

July 2024 - October 2024

- **SDE Intern - FOG**
  - Developed UI components using React and Tailwind.
  - Contributed to UX improvements and design.

June 2023 - July 2023

- **Intern At TATA motors**
  - Assisted in quality inspection processes during manufacturing line audits.
  - Assisted in time study of Assembly line.

July 2022

- **Social Volunteer At Hamari Pahchaan NGO**

## Projects

- **Chatzu** - Built a real-time chat app using the MERN stack and Socket.IO, enabling one-on-one and group messaging with a seamless user experience. Demonstrated skills in full-stack development and real-time, scalable communication systems. ([link](#))
- **Recipe sharing** - Built a recipe-sharing website using the MERN stack with user authentication. Integrated MongoDB, Express.js, React.js, and Node.js to enable users to share and explore recipes. Deployed and maintained the application for public use. ([link](#))
- **Blog web app** - Created a blog platform with custom CMS and clean UI using React and appwrite. ([link](#))
